# Women Build Program

Habitat for Humanity Capital Region's Women Build Program provides the opportunity for women to take a proactive step in serving their communities.

Women Build Program opportunities are available throughout the year and no experience is necessary. Volunteers work under the guidance of construction professionals, and also alongside other volunteers and future Habitat homeowners. Women Build Program projects would include but are not limited to painting, drywall, framing, demolition, landscaping, replacing doors and windows, building accessibility ramps, and neighborhood revitalization. Whether you are learning new skills or simply adding a few to your tool belt, this is a rewarding experience for all involved, and improves the community that we share.

Women Build Program is also a terrific way to involve your friends and family in crucial work with a lasting impact. Women helping women sends a positive and powerful message. You can also come alone and make new friends in this collaborative and friendly atmosphere.
